

pit

pitCAD ULTIMATE

For a climate-neutral building stock

pitCAD ULTIMATE

Use **pitCAD** Ultimate and **SOLAR-COMPUTER** software solutions to create energy efficiency certificates according to the Buildings Energy Act (GEG) or life cycle assessments according to the Quality Seal Sustainable Building (QNG).

BUILDING MASTER DATA

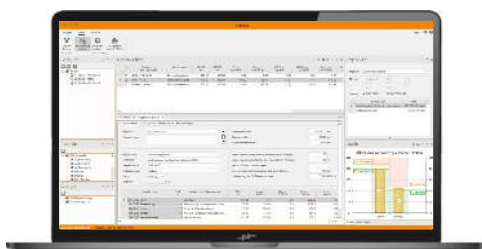

- Preparation and integration of existing CAD/BIM as-built plans (DWG, IFC)
- Digitization of planning documents (PDF, TIFF etc.)
- Preparation of point clouds into a 3D model

GEG VERIFICATION

- Calculating, testing and verifying energy efficiency
- Creating energy certificates and energy reports
- Calculation of economic efficiency

LIFE CYCLE ASSESSMENT

- Calculation of characteristic values for QNG
- Balancing of primary energy demand
- Life cycle assessment verification for the PLUS" and „PREMIUM" seal variants

pitCAD ULTIMATE

**SOLAR
COMPUTER**

**Digital solutions for sustainable
real estate management.
From planning to building operation.**

One for All
