with smart mobile devices

pitFM MOBILE

Sustainable working with smart mobile devices.

With pitFM Mobile you have access to all relevant information at all times. No matter where you are.

For the power user on site

One for All

A central app for your processes. From master data management, order processing, meter value recording, defect management to TGA data recording.

Intuitive

Intuitive user interface. No lengthy training required.

Analytics

Visualize the data via the integrated dashboard. Analogous to pitFM Expert.

Custom fit

Our standard can be flexibly adapted to your individual needs with pit Studio. No programming, just graphical process modeling with just a few mouse clicks.

Graphics integration

Our CAD interface converts your CAD plans into lean SVG files. Take advantage of the added value of visual editing. Display plans, intuitively locate objects on the plan, and generate tickets from the plan.

Basic feature

Offline availability of data, responsive interface, multi-user, multi-process and multi-language capability and full access to the entire data model.

**Digital solutions for sustainable
real estate management.
From planning to building operation.**
